Curtis Griffith, South Plains' Chairman and Chief Executive Officer, commented, "Over my nearly 50 year tenure in banking, I have seen many tumultuous periods each of which have had their own unique challenges. Ultimately, it has been the experience and talent of our people combined with a well-capitalized balance sheet which has consistently positioned the Bank to not just weather the storm but thrive. While this time of crisis is extremely difficult for so many, we expect to continue to be successful through our dedication and support to our customers and communities for without their success ours would not be possible. It is this philosophy and experience that guides our company and I would like to thank our employees for their hard work and dedication to ensure that our operations continue to run smoothly and the services and support to our customers are uninterrupted during these challenging times. While the outlook remains uncertain, we remain confident in our disciplined underwriting culture, our risk management processes and our liquidity position. As we look out to the balance of the year and into 2021, we believe that we have the capital to absorb the losses in our portfolio that could result from the adverse environment we are in and feel well-positioned to take advantage of opportunities that could be created in these difficult times."

COVID-19 Update

The Company's Oversight Committee has monitored the spread of the coronavirus since the beginning of January and has continuously escalated the Company's response as well as employee and customer communications. As the coronavirus continued to spread across the globe, the Company created a Pandemic Task Force to implement South Plains' Business Continuity Plan to ensure the safety of the Company's employees and customers while maintaining the operational and financial integrity of the Bank. Non-essential employees were transitioned to a work-from-home environment, strict protocols for employees deemed essential were adopted to ensure adequate social distancing and all Bank facilities are receiving incremental cleaning and sanitization. The Company has restricted access to its bank lobbies and are allowing customers in by appointment only while providing essential banking services through the Bank's drive-through windows and recently upgraded digital platforms.

The Company has invested significantly in its technology and infrastructure having opened a new operations center in 2018 which is a cutting-edge facility that handles the Company's Digital Banking, Treasury Management, Loan and Deposit Operations, and also houses the Bank's Customer Xperience Center. The facility was designed to allow for substantial growth of the Bank and, as a result, has adequate space to provide the Company's essential employees the necessary room to social distance while seamlessly supporting the Bank's customers and performing the critical tasks necessary to keep the Bank's operations running efficiently. The facility also provides support for the Bank's employees who are working remotely.

The Bank has also implemented a rigorous enterprise risk management ("ERM") system, that delivers a systematic approach to risk measurement and enhances the effectiveness of risk management across the Bank. Management believes that integrating this ERM system into the Bank's culture and strategic decision-making has improved all functional areas of the business. For example, the Bank's asset quality has improved by enhancing City Bank's underwriting process and establishing a specific credit appetite that aligns to the broader enterprise risk management framework. The Bank's ERM system will allow management to consistently and aggressively review the Bank's loan portfolio for signs of potential issues during the ongoing COVID-19 pandemic and the Bank is closely monitoring its loans to borrowers in the retail, hospitality and energy sectors. City Bank's ERM system has improved the Bank's ability to manage credit and has positioned the Company and the Bank to successfully weather the uncertain economic environment caused by the ongoing COVID-19 pandemic.

While the duration of the pandemic and the scope of its impact on the economy is uncertain, the Bank is proactively working with its borrowers in those sectors most affected by the pandemic and offering loan modifications to borrowers who are or may be unable to meet their contractual payment obligations because of the effects of COVID-19. The Bank has also assigned its Chairman, Chief Executive Officer, Chief Credit Officer and Chief Lending Officer to partner with the Bank's lenders on those borrowers most impacted by the virus to ensure the Company is proactively addressing those credits with the appropriate oversight and modifications when warranted, helping those borrowers bridge the gap until the economy begins to normalize. As part of the Bank's efforts to support its customers and protect the Bank, the Bank has offered varying forms of loan modifications ranging from 90-day payment deferrals to 6- to 12-month interest only terms to provide borrowers relief. As of March 31, 2020, total loan modifications attributed to COVID-19 were approximately \$155 million, or 7%, of the Company's loan portfolio. As of April 24th, 2020, total loan modifications attributed to COVID-19 had increased to approximately \$368 million, or 17%, of the Company's loan portfolio.

The Bank has also been active in assisting its customers in accessing the Paycheck Protection Program (the "PPP") administered by the Small Business Administration (the "SBA") and created under the Coronavirus Aid, Relief, and Economic Security Act (the "CARES Act"). As of April 24th, 2020, the Bank had originated over \$170 million in PPP loans for over 1,100 customers whose PPP loan applications were approved and funded. The Bank intends to continue accepting and processing new PPP loan applications for as long as funding for the program remains available. The Bank will utilize its lines of credit with the Federal Home Loan Bank of Dallas and/or the Federal Reserve Bank to supplement funding for these loans as needed. Helping City Bank's customers access PPP loans is just one way that the Bank has been helping its customers and communities during this challenging time. City Bank has also been a supporter of the South Plains and Permian Basin food banks and recently increased its financial support given the challenging economic environment for so many.

Finally, as announced on April 16, 2020, the Company has temporarily suspended its stock repurchase program in response to the ongoing COVID-19 pandemic. Suspending the stock repurchase program will allow the Company to preserve capital and provide liquidity to meet the credit needs of the customers, small businesses and local communities served by the Company and City Bank. The Company believes that it remains strong and well-capitalized, and the Company may reinstate the stock repurchase program in the future.

Results of Operations, Quarter Ended March 31, 2020

Net Interest Income

Net interest income was \$30.2 million for the first quarter of 2020, compared to \$24.5 million for the first quarter of 2019 and \$28.6 million for the fourth quarter of 2019.

Interest income was \$35.7 million for the first quarter of 2020, compared to \$32.0 million for the first quarter of 2019 and \$34.8 million for the fourth quarter of 2019. Interest and fees on loans increased by \$2.9 million from the first quarter of 2019 due to growth of \$211.2 million in average loans, from the West Texas State Bank ("WTSB") acquisition as well as organic loan growth, partially offset by a decrease of 8 basis points in interest rates. The increase from the fourth quarter of 2019 was the result of an increase of \$71.8 million in average loans outstanding during the first quarter of 2020, which was primarily due to having the acquired WTSB loans for a full quarter, partially offset by a decrease of 3 basis points in interest rates.

Interest expense was \$5.5 million for the first quarter of 2020, compared to \$7.5 million for the first quarter of 2019 and \$6.1 million for the fourth quarter of 2019. The decrease from the first quarter of 2019 was primarily due to a decrease in the interest rate paid on interest-bearing liabilities of 47 basis points, partially offset by an increase of \$127.5 million in average interest-bearing liabilities. The decrease from the fourth quarter of 2019 was primarily due to a decrease in the interest rate paid on interest-bearing liabilities of 15 basis points, partially offset by an increase of \$101.5 million in average interest-bearing liabilities in the first quarter of 2020. The average cost of deposits was 65 basis points for the first quarter of 2020, representing a 41 basis point decrease from the first quarter of 2019 and a 11 basis point decrease from the fourth quarter of 2019. The increase in average interest-bearing liabilities and the decrease in the rate paid on deposits in the first quarter of 2020 were primarily due to the WTSB acquisition as well as a general decline in overall rates.

The net interest margin was 4.13% for the first quarter of 2020, compared to 3.93% for the first quarter of 2019 and 4.03% for the fourth quarter of 2019.

Noninterest Income and Noninterest Expense

Noninterest income was \$18.9 million for the first quarter of 2020, compared to \$12.1 million for the first quarter of 2019 and \$16.7 million for the fourth quarter of 2019. The increase in noninterest income for the first quarter of 2020 compared to the first quarter of 2019 was primarily the result of an increase of \$3.9 million in mortgage banking activities revenue as a result of an increase of \$93.5 million in mortgage loan originations. Additionally, there was a \$2.3 million gain on sale of securities in the first quarter of 2020. The increase from the fourth quarter of 2019 was primarily the result of an increase of \$2.2 million in mortgage banking activities revenue as a result of an increase of \$28.2 million in mortgage loan originations and a \$2.3 million gain on sale of securities, partially offset by \$1.5 million in annual profit-sharing bonuses related to crop insurance activities recognized in the fourth quarter of 2019.

Noninterest expense was \$34.0 million for the first quarter of 2020, compared to \$30.0 million for the first quarter of 2019 and \$31.7 million for the fourth quarter of 2019. This increase in noninterest expense for the first quarter of 2020 compared to the first quarter of 2019 was primarily driven by a \$1.7 million increase in personnel expense, predominately related to the WTSB acquisition and increased commissions paid on the higher volume of mortgage loan originations. There was also an increase in variable mortgage expenses, such as appraisal expenses, due to the increased mortgage production during the quarter. Other noninterest expenses also increased due to the WTSB acquisition, including occupancy and other noninterest expenses for the branches acquired and core deposit intangible amortization expense. The increase from the fourth quarter of 2019 was primarily the result of a full quarter of core expenses for our new Permian Basin branches, higher commissions and other variable mortgage expenses as a result of increased production, \$331,000 in data conversion expenses and \$300,000 in computer equipment purchased in connection with upgrading the equipment at the acquired branches as well as at existing branches.

Loan Portfolio and Composition

Loans held for investment were \$2.11 billion as of March 31, 2020, compared to \$2.14 billion as of December 31, 2019 and \$1.92 billion as of March 31, 2019. The \$34.8 million decrease during the first quarter of 2020 as compared to the fourth quarter of 2019 was primarily the result of \$34.5 million in seasonal agricultural production loan net paydowns. As of March 31, 2020, loans held for investment increased \$193.6 million from March 31, 2019, attributable to the WTSB acquisition as well as organic loan growth.

Agricultural production loans were \$96.8 million as of March 31, 2020, compared to \$131.2 million as of December 31, 2019 and \$107.3 million as of March 31, 2019.

Deposits and Borrowings

Deposits totaled \$2.67 billion as of March 31, 2020, compared to \$2.70 billion as of December 31, 2019 and \$2.30 billion as of March 31, 2019. Deposits decreased \$31.0 million, or 1.1%, in the first quarter of 2020 primarily as a result of some outflows of balances acquired from WTSB, which had temporarily increased in the fourth quarter of 2019. As of March 31, 2020, deposits increased \$360.9 million from March 31, 2019. This increase is primarily as a result of the assumption of deposits from the WTSB acquisition.

Noninterest-bearing deposits were \$740.9 million as of March 31, 2020, compared to \$790.9 million as of December 31, 2019 and \$497.6 million as of March 31, 2019. Noninterest-bearing deposits represented 27.8%, 29.3%, and 21.6% of total deposits as of March 31, 2020, December 31, 2019, and March 31, 2019, respectively. The decrease in the first quarter of 2020 compared to the fourth quarter of 2019 was primarily the result of some outflows of balances acquired from WTSB, which had increased in the fourth quarter of 2019. The increase in the first quarter of 2020 compared to the first quarter of 2019 is primarily as a result of the assumption of deposits from the WTSB acquisition.

Asset Quality

The provision for loan losses recorded for the first quarter of 2020 was \$6.2 million, compared to \$608,000 for the first quarter of 2019 and \$896,000 for the fourth quarter of 2019. The increase in the provision for loan losses in the first quarter of 2020 compared to the prior quarters is a result of economic effects from COVID-19 as well as the decline in oil and gas prices. The full extent of the impact on the economy and the Bank's customers is unknown at this time. Accordingly, additional provisions for loan losses may be necessary in future periods.

The allowance for loan losses to loans held for investment was 1.38% as of March 31, 2020, compared to 1.13% as of December 31, 2019 and 1.22% as of March 31, 2019.

The nonperforming assets to total assets ratio as of March 31, 2020 was 0.28%, compared to 0.24% as of December 31, 2019 and 0.37% at March 31, 2019.

Annualized net charge-offs were 0.25% for the first quarter of 2020, compared to 0.17% for the fourth quarter of 2019 and 0.07% for the first quarter of 2019.
